**STEP
01.**

When You Land

Turn off your phone, take out your old SIM card.

**STEP
02.**

Swap It

Pop the new SIM card out and plug it back into your phone.

**STEP
03.**

Power On

Power on your phone. You may need to configure the APN.

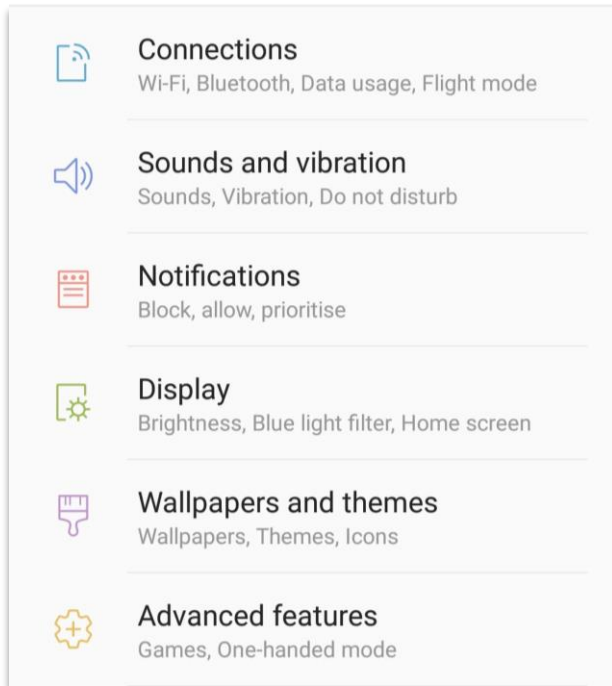

APN Settings

If you do not get data, you may need to configure APN settings to enable data on your device. Please follow the instructions below.

Open the Settings Application and open connections

Open the Settings Application and open Mobile

In Connections, open the Mobile networks page

In Mobile, check that Data Roaming is enabled

Check that Data roaming is enabled

Click on Mobile Data Network

Open the Access Point Names Page

Configure the Mobile Data as per below

Click the Add button

Configure as per below

Support

If things go wrong, we are here to help!

My SIM card doesn't work

If you are having issues access data please take a look at the APN settings guide.

I want to make calls

If you need to make local or international calls we recommend the use of Skype, WeChat Out or Viber Out. If you need to make calls to friends we recommend using Facebook Messenger or Whatsapp.

My SIM card still doesn't work

If you are still having trouble with your SIM card you can reach out to us via our Contact Us form located here:

<https://www.northsim.com/contact-us/>

Please choose the Support option from the dropdown menu and include the following information.

- Device (eg. iPhone X, Samsung Galaxy S9)
- Screenshot of your APN settings
- Screenshot of your Data Roaming settings
 - Refer to the APN Settings section

We can also be reached via Facebook Messenger
Click the blue messenger button or visit us at
<https://facebook.com/northsim>

How can I track my usage?

You can use the inbuilt data usage tracker on your device

Open the Settings Application and open connections. Open Data Usage

Open the Settings Application and open Mobile. Scroll to Mobile Data Usage

travel connected.
